Nearly a hundred riders have already announced their intention of riding in the race next June.

## WHEELS TO BUZZ AGAIN.

For Fourteen Years the Lanark Mills Have Stood Still.

PHILADELPHIA, April 20.—One of the most unique evidences of returning commercial prosperity is the reopening of the Lanark mills, which have stood idle for over fourteen years. These mills were established nearly a half century ago, and will be reopened in the old buildings on Main street in this city by three grandsons of the founder, William Baird.

About one hundred hands will be employed in the manufacture of ribbed woolen underwear. The old buildings, which have fallen somewhat into decay, are now being renovated, and will be ready for operations about the first of May.

## RAILROAD NEWS.

Round Trip Rate of \$14 Granted Chicago to Topeka—Other News.

The Santa Fe has consented to a \$14 round trip rate for the May excursion of the Kansas Immigration company, and an effort is being made by the company to get the Rock Island to meet the rate. General Manager Edgecombe of the company returned yesterday from a trip through western and northern Kansas in its interest, and says it is flourishing. He incidentally says, too, that wheat is looking fine and promises a good crop. If possible the first excursion will take place on May 28th, as formerly announced, and will be followed by excursions at intervals of about a month all summer.

The trains will stop at Topeka, and this will be used as the distributing point. The company is now gathering letters of commendation from prominent men of the state, and when the Baudreids have been secured they will be published in pamphlet form and distributed in the east and north.

There is a report out that the Maple Leaf is soon to get into the Kansas City union depot, something it has not yet been able to do. It is further believed that if the Maple Leaf is successful, the Wyandotte will soon follow.

Five newly rebuilt passenger coaches have been turned out of the Santa Fe shop this week.

A union meeting of the Order of Railroad Conductors and the Brotherhood of Locomotive Trainmen will be held at Newton on Sunday, April 29th, to discuss measures looking to the abolition of the seniority rule on the Santa Fe. The meeting will be open to all members of either society and no credentials will be asked. If you are interested try and be there.

Charles Eichor of the Santa Fe shops had his right hand badly mangled this morning while lifting a heavy piece of iron, and will be off duty for several days.

Jesse Shaw of the Topeka Board of Education will address the afternoon meeting at the railroad Y. M. C. A. rooms next Sunday.

Auditor McCabe of the Union Pacific was in the city last evening.

Ten different railway unions have lodges at Topeka. They are: The Brotherhood of Railway Carmen, the International Association of Mechanics, the Brotherhood of Locomotive Engineers, the Brotherhood of Railway Trainmen, the Brotherhood of Railway Switchmen, the Brotherhood of Boilermakers, the Order of Railroad Conductors, the Brotherhood of Railway Bridge and Building Men of America, the Brotherhood of Locomotive Firemen, and the American Railway Union, besides several woman's auxiliaries.

The Union Pacific in Colorado has asked state protection against the industrial army. The governor, however, refuses to do anything.

The railroads have made a rate of one fare for the round trip to the Democratic state convention here July 3rd.

The expected fight between the Union Pacific and the Western Passenger association has been announced to begin next Sunday, the 22nd.

The railroads have made a rate of one fare for the round trip to Hutchinson for May 8, 9, 10 and 11, on account of the annual convocation of the Grand Commandery Knights Templar, the annual meeting of the Grand Chapter of the Eastern Star and the Kansas Musical Jubilee, all of which meet there on those dates.

A rate of one fare for the round trip has been announced for the State Sunday School convention at Wichita May 7th to 11th.

On June 1st tickets at the Colorado tourist rates will be on sale from Missouri river points at \$25 for the round trip. Sale will continue till September 30th, and tickets are good for return until October 31st.

An effort is being made to secure a one fare for the round trip rate to the Christian Endeavor convention at Cleveland, Baptist Young People's meeting at Toronto, National Educational association at Asbury Park and the G. A. R. encampment, Pittsburg, Pa.

The passenger business in France is about 50 per cent of a railway's total earnings; in America it is about 28 per cent.

General Manager J. J. Frey, of the Santa Fe, has received a letter from General John Twombly, of Guthrie, O. T., asking for box car transportation for 500 to 800 men "industrial" soldiers, at a round trip rate of \$2 a head to Washington. No action will be taken on the matter as a railroad could not afford to make the rate.

The land department of the Santa Fe received this morning several specimens of gold, silver, lead, copper and other ores from Colorado and New Mexico, for the German exhibit.

Articles have been filed with the secretary of state of Colorado by the officials of the Colorado Midland railway authorizing the extension of the road from Cripple Creek to Canon City and removing the general offices of the road from Colorado Springs to Denver.

## SARGENT FOR CONGRESS.

The Grand Master of the Locomotive Firemen to Run.

Grand Master Sargent of the Brotherhood of Locomotive Firemen, in a letter made public, announces that he will accept the Republican nomination for congress if nominated in the Eighth Indiana district, now represented by Brookshire, Democrat.

Mr. Sargent says: "If, in the judgment of my friends, I can represent the people of the district to the end that prosperity may again surround us and the conditions of wage-workers be improved and idleness and want driven from our land,

and if the Republican party will be satisfied with a representative whose aim will be to represent the people of the Eighth district honestly and fearlessly, one who will make no pledge, except to discharge the duties of the office to the best of his ability, I will allow my name to be presented if my friends believe it to be to the best interests of the district." This practically insures the nomination of Sargent, as the leaders were only waiting for the word from him. The district is usually Democratic by about 12,000.

## CY LELAND AFTER HIM.

Prosecuting Witness Against an Ex-Confederate Who Voted Illegally.

Cy Leland of Troy is the prosecuting witness in the case of Lawson Mann, charged with illegal voting which is being tried in the federal court today. Mr. Leland, however, is only one of many witnesses. Nearly all of them are old men, so feeble they can't talk loud enough to satisfy the court.

It is charged that Mann was a soldier in the confederate army, was never duly paroled under the reconstruction act. He voted at the elections of 1890 and 1892, each time voting against the Leland forces.

To prove that Mann was in the confederate army, Adjutant General J. A. Wickham of Missouri, was put on the witness stand. He produced rolls to show that Mann served in the rebel army.

Another witness was a typical Missourian from Andrew county. This man wore a jeans cutaway coat that was parted near the shoulders and extended only a short way below the suspenders. His cheeks were puffed out like toy balloons and he talked with a Pike county accent. He had known Mr. Mann since 1861, when "they" hit under Captain Doyle, Collins' division, Price's army. He repeated this phrase frequently.

The defense will try to prove that Mann "hit" in the federal army after leaving "Captain Doyle, Collins' division, Price's army."

George R. Peck, general solicitor for the Santa Fe, and W. H. Rossington, the counsel for the Union Trust company of New York, went out of St. Louis last night in a special car for Little Rock, Ark., to confer with Judge Caldwell.

Receiver Wilson is at Eureka Springs, not far away, with Chief Surgeon Hogebloom. Railroad men attach considerable significance to this pilgrimage to Little Rock, and intimate that their mission is for something more than to receive minor orders from the court. It is hinted that the conference is on the subject of improvements on the Santa Fe system.

The New Senator From South Carolina Opposed to Cleveland.

RALPH, N. C., April 20.—A letter is published from Thomas J. In an interview he has said that he stands on the Chicago platform as construed at the south. His relations with the administration so far as he can control them may be inferred from the fact that he was a minister to Brazil under Mr. Cleveland's former administration.

## RECEIVER APPOINTED.

An Iron Company in Which Rockefeller is Largely Interested.

WEST SUPERIOR, Wis., April 20.—A receiver has been appointed for the West Superior Iron and Steel company on the petition of the Northwestern Iron company of Milwaukee.

The Land and River Improvement company was the largest creditor of the steel company. Francis Henry Weeks, one of the promoters of the Land and River improvement company, was heavily interested in the steel company and as president of the land company advanced the steel company about \$4,000,000, giving the land company notes from the steel company.

When Mr. Weeks of the land company attached one plant of the steel company to satisfy its claims, numerous smaller attachments have since been filed. J. D. Rockefeller holds \$1,750,000 of first mortgage bonds against the company.

The plant was in successful operation about one year ago.

## Simple Test of the Eyesight.

There is an experiment that anyone can try to discover whether he has an incipient cataract. Stand with the back to the window with a lighted candle before the eye. If the eye be healthy three candles are seen—two are erect, but the middle one is turned upside down. When the back of the lens is opaque the inverted candle nearly disappears or is obscured, and when the front of the lens is affected the inverted candle entirely disappears.
